October 15, 1921.

To,
Dr. J. C. Patterson,
Local Registrar at Burley, Idaho.

Dr. A. F. O. Nielson,
Local Registrar at Oakley, Idaho.

Dear Doctor:

Certificate of Death of Charles Graham Parkinson who died June 14th, 1921, has been filed by each of you as Registrars. The one sent in by Dr. Nielson is signed by Dr. Jesse L. Rains of Oakley, and the one filed by Dr. Patterson is signed by L. B. Gallogly, Coroner of Burley, Idaho. Dr. Rains signs as the attending physician and gives the cause of death as Arteriosclerosis, while the Coroner gives the cause of death as "Valvular Heart Disease".

The Undertaker on the certificate of Dr. Patterson is given as L. B. Gallogly and on the certificate filed by Dr. Nielson the Undertaker is given as B. Harper and the date of burial as June 16th while Mr. Gallogly gives the date of burial as June 20th, 1921.

From all the above you will note some discrepancies and we are at a loss to know which certificate to accept as the facts in the matter. The date of birth is the same on both certificates so we feel it is the same person.

We enclose herewith a self-addressed stamped envelope and would be glad to hear from each of you for you can realize our position if we

were ever called upon to furnish a certified copy of the death certificate.

Thanking you for usual promptness, we are,

Yours very truly,

F. W. Almond.

F. W. Almond, M. D.
Medical Advisor.

Oakley, Idaho Oct 17 - 24

Gentlemen :- Mr. Parkinson died at Oakley and was buried at Oakley, I was not aware that Mr. Galloyly was the undertaker, and took it for granted that Mr. Harper was, so give Galloyly credit for the date and burial. Give Dr. Rhines the credit for the diagnosis, you know he is an M. D., Galloyly is a good fellow also but he guesses at our mistakes, as Parkinson died in my district, and he quotes to me and I will give Dr. Patterson a drink, so everybody is taken care of-

Yours truly, F. W. Almond

A stillbirth must be registered both as a birth and a death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer, Physician, Stenographer, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman, etc.* But in many cases, especially in industrial employments, it is necessary to know (*a*) the kind of work and also (*b*) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (*a*) *Spinner,* (*b*) *Cotton mill;* (*a*) *Salesman,* (*b*) *Grocery;* (*a*) *Foreman,* (*b*) *Automobile factory.* The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specifications, as *Day laborer, Farm laborer, Laborer—Coal mine,* etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers,* who receive a definite salary), may be entered as *Housewife, Housework,* or *At home,* and children, not gainfully employed, as *At school* or *At home.* If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business that fact may be indicated thus: *Farmer (retired 6 yrs.)* For persons who have no occupation whatever, write *None.*

STATEMENT OF CAUSE OF DEATH—Name, first the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid Pneumonia") *Lobar pneumonia; Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum,* etc., *Carcinoma, Sarcoma,* etc., of .....(name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms; *Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis, etc.* The contributory (secondary or intercurrent affection need not be stated unless important. Example: *Measles* (disease causing death), *29 ds.; Bronchopneumonia* (secondary), *10 ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility," ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL *septicemia,*" "PUERPERAL *peritonitis,*" etc., all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g. *sepsis, tetanus*) may be stated under the head of "Contributory."

I, V. G. Logan, M. D., being first duly sworn, on my oath state:

That I am the identical person who as physician and surgeon signed the Certificate of Death of Samuel Henry Stitt, who died on September 8, 1921, according to said Death Certificate;

That I was called in to make a Death Certificate to permit burial after the death of said Samuel Henry Stitt, and that, in making out said Certificate, I was guided by hearsay as to the cause of death; that I had never treated deceased for Intestinal Tuberculosis prior to his death, and had no reason for so stating said cause in said Certificate except upon hearsay and through misunderstanding of the facts concerning Mr. Stitt's death; I have never observed or treated any member of Mr. Stitt's family, including Mr. Stitt himself, for any ailment, sickness, disease, injury or other indisposition of any kind or character.

This statement is made for use in connection with the application of Henry Geroge Stitt for life insurance, and is made in order to prevent any unjust discrimination against said Henry George Stitt in the securing of such insurance by reason of said Certificate of Death first above mentioned.

Dear Sir:

In checking our old file we find we have an incomplete correction of a certificate pertaining to the death of your father, Samuel Henry Stitt.

Doctor Logan filled out a new death certificate and also enclosed an affidavit of correction. However, since this affidavit was not properly stated, a new affidavit was sent to him but to date we have heard nothing from him.

Would it be possible for you to contact Doctor Logan and have him complete this affidavit in order that your father's death certificate may be properly corrected?

We are holding stamps in the amount of fifty cents for the certified copy.

Yours very truly

Dear Doctor Logan:

We are writing you relative to the correction of the cause of death of Samuel Henry Stitt, who died on September 8th, 1921.

The Attorney General's office has ruled that the only way to handle this case is to attach an affidavit of correction to the original certificate of death as filed by you and then issue a copy of the affidavit with the certified copy of the original death record.

We are enclosing an affidavit prepared by the office of the Attorney General to be signed by you in triplicate before a notary and returned to this office.

Very truly yours,

Dear Sir:

Regarding the correction of the cause of death on the death certificate of your father, Samuel Henry Stitt, we have concluded it might be better for Dr. Logan to fill out and sign a new death certificate.

We are enclosing a blank form partially filled out but have not filled in any of the blanks of the medical certificate. If you will have Dr. Logan fill this in and sign and return to this office, we will attach the corrected copy to the old one and issue a new certified copy from the corrected certificate.

Also it might be advisable to fill in the name of the deceased's wife.

Very truly yours,

January 4, 1921.

Dr. J. [illegible] Young,

Pocatello, Idaho.

Dear Doctor:

Upon compiling our statistics for the death certificates sent in the early part of December we find you filed a certificate for Mrs. Hulda Westrom "and Infant". Will you kindly have the undertaker make out a certificate for the child as a death certificate should only be made for one person. No doubt this escaped your notice. The Undertaker was W. M. Walker, and the physician J. H. Lynn.

Respectfully yours,

F. W. Almond, M. D.
Medical Advisor.

SYMS-YORK CO., PRINTERS & BINDERS, BOISE 16672

A stillbirth must be registered both as a birth and death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer, Physician, Stenographer, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary firemen,* etc. But in many cases, especially in industrial employments, it is necessary to know (*a*) the kind of work and also (*b*) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: *(a) Spinner, (b) Cotton mill; (a) Salesman, (b) Grocery; (a) Foreman, (b) Automobile factory.* The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer, Farm laborer, Laborer—Coal mine,* etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers,* who receive a definite salary), may be entered as *Housewife, Housework,* or *At home,* and children, not gainfully employed, as *At school* or *At home.* If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer (retired, 6 yrs.).* For persons who have no occupation whatever, write *None.*

STATEMENT OF CAUSE OF DEATH.—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid Pneumonia") *Lobar pneumonia; Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum,* etc., *Carcinoma, Sarcoma,* etc., of .....(name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms); *Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis, etc.* The contributory (secondary or intercurrent affection need not be stated unless important. Example: *Measles* (disease causing death), *29 ds.; Bronchopneumonia* (secondary), *10 ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility, (Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Haemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL *septicemia*", "PUERPERAL *peritonitis,*" etc., all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; Struck by railway train —accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*) may be stated under the head of "Contributory."
